THE STORY SO FAR

Biometals are enigmatic, sentient crystals. Any person who is able to activate the power within these crystals is known as a Mega Man. This is a story of love and courage, which follows a young boy named Vent as he fights against Serpent to save the world.

While delivering two Biometals to the Guardians, Vent and Girouette were attacked by a group of Mavericks. With the aid of the Biometals, they were able to defeat the Mavericks, but Girouette was defeated by Serpent.

Vent combined Girouette's Biometal with his own to Double Megamerge and become Mega Man Model ZX. After saving his hometown from a Maverick assault, Vent vowed to defeat Serpent and joined the Guardians. As a new member of the Guardians, Vent defeats Hivolt, one of Serpent's powerful minions.

One day, on a mission for the Guardians, Vent is tricked by Lurerre, another one of Serpent's minions. Vent is dragged into a lake and frozen solid by Lurerre's ice attack. As Vent slowly loses consciousness, Lurerre prepares to finish him off with a final attack. Will Vent make it out alive?
